

StrutFoot Fleeces

The StrutFoot fleece has been designed to suit both our plastic feet and rubber feet. They are used for in between asphalt and PVC roof membrane surfaces. This will therefore help prevent polymer migration between the plastic and rubber products.

Product Information

Part No.	Length (mm)	Width (mm)	Thickness (mm)
SF9010	215	215	4
SF9011	315	315	4
SF9012	515	515	4
SF9013	250	200	4
SF9014	400	200	4
SF9015	600	200	4
SF9017	1000	200	4

StrutFoot Mounting Blocks

The StrutFoot mounting block is a solution for supporting small condensing units on a roof without penetrating the roof membrane. They are made from recycled PVC plastic and are UV stabilised.

Product Information

Part No.	Length (mm)	Width (mm)	Safe Working Load (kg)
CB350	350	105	240
CB450	450	105	240
CB600	600	105	240
CB1000	1000	105	240

They are manufactured in house enabling us to also offer bespoke sizes upon request.
